**NEWS RELEASE**  
**TILLOTTS PHARMA UK APPOINTS APODI TO SUPPLY OUTSOURCED HR SERVICE**

Apodi Limited has signed an exclusive agreement with Tillotts Pharma UK Ltd to provide a fully comprehensive outsourced HR & Development Service as part of Tillotts plans to increase its HR capability.

Mark Murphy Apodi's Business Unit Director for HR & Development services said: "We are delighted by this opportunity. As a highly experienced HR&D team with a strong heritage in the Pharmaceutical and Healthcare sectors we have a wealth experience and credibility in dealing with HR issues typical to the Pharmaceutical industry."

Tillotts UK Country Manager, Jeremy Thorpe, said: "I am really pleased with our decision to appoint Apodi to support our HR requirements. Apodi came to us well regarded and are experienced in dealing with similar organisations to ourselves. We took the decision to work with Apodi as we are keen to benefit from the wider skill set that they could offer to help us help our staff and we are really enjoying working with them."

**About Apodi**

Apodi provides comprehensive outsourcing solutions to pharmaceutical and healthcare businesses and organisations.

Working in partnership with pharmaceutical and healthcare companies we deliver innovative, commercial and value added outsourcing solutions, which:

- Improve patient outcomes and experiences
- Advance relationships with the NHS
- Drive the commercial return of your products

Through commercial insight, market intelligence and highly motivated people, Apodi helps our clients achieve improved outcomes and performance. Over the years we have worked hard to break the traditional model with a focus on the changing NHS environment and the challenge we all face to improve patient outcomes.

The Apodi HR & Development unit assists clients in building high performing organisations by optimising workplace performance.

**About Tillotts Pharma UK Ltd**

Tillotts in the UK is an affiliate of Tillotts Pharma, based in Switzerland. They are a speciality pharma company focused on the development, in/out-licensing and marketing of innovative pharmaceutical products, medical devices and diagnostics in the field of gastroenterology.
